“Better Homes and Garden” Attractive

You will love what you see when you take a look at this newly listed charming bungalow style home. The owner has put lots of love and creativity in this home and it stands out in the market place.

Every buyer is on a mission to get more for the home dollar and to find comfort, style and function...a home that offers more living. This is a home that does just that. The home is situated on a corner lot. Great style does not have to stop at the back door. The back yard of this home gives you outdoor living, just add your favorite patio furniture and you will discover the enjoyment of being outdoors.

This home has the perfect blend of old meets new. You will love the original hardwood floors, wood doors and trim and the original glass door knobs. This is a home that has had just the right touch of color and accents to bring today's style as a compliment to yesterday tradition. The touches of "sage green" and "brick red" are just a few of the complimentary colors that accent the natural wood tones.

We can be pulled in all kinds of directions throughout the day and that is what makes a home not only a shelter but a haven to escape to. This home will help in creating the life that reflects the true you and the atmosphere for escape. A move-in ready home that is stylish and function able is what we all desire.

There are three bedrooms and three baths in this great home. Plus there is a finished recreational area in the basement as well as an office/computer area. You will be surprised to see the finished space this home offers.

If you are looking for storybook charm that meets simple sophistication then call Molly today to make your appointment to view this modernized vintage bungalow home.
