A Home Priced To Get Your Attention

Call or text Molly today at 785 462-5203 to make your appointment to view this newly listed home. The home offers 4 bedrooms and 2 bathrooms. The partial basement adds additional finished living space.

The home is in a well-established location and you will like the corner lot.

There is a spacious family room in the rear of the home with built ins. The open staircase to basement is in this room. The master bedroom is also in the rear of the home and zoned separate from the other two main floor bedrooms.

You will appreciate the main floor laundry which is right off the kitchen and easy access to the attached garage. This makes it a perfect mud room area to store boots and gloves.

Previous owner installed many updated windows and minimal maintenance siding. This is an affordable home which will allow you to do some decorative updates to make it feel and be YOUR home.
